### **Notes:**

1. The fire flow test will be conducted by WHUD personnel and will be conducted on the fire hydrants nearest the project site unless otherwise approved by WHUD.
2. The fire flow test should be conducted no more than twelve (12) months prior to the start of construction for said project.
3. The fire flow test will be scheduled within ten (10) business days of receiving this request along with a check made payable to White House Utility District for \$100. This fee covers one test only. If additional tests are requested/needed, additional fees will be required prior to scheduling the tests.
4. WHUD will provide a written response of the test results within ten (10) business days of completing the test. Please keep this in mind when trying to meet your project timelines. This written response will be the only flow information WHUD will acknowledge as available at the test site.
